

S&WHF *Historical Letter Request Form*

Once you receive your Letter of Authenticity we may be able to search for additional information in our digitized records. These records only cover the time frame from 1920 to 1966. Sometimes we find information, other times there is none. There may be copies of correspondence or copies of the invoices. If we find information, we will email you about what we have found and give you a choice of obtaining the copies or not and what the charge will be. If we do not find anything there will be no charge.

Please print clearly:
